Customer may need to provide the pool with maintenance between Cozy's visits.

This may be necessary due to events such as rain storms, algae contamination, high winds or excessive heat. This may require that the customer perform interim task such as: adding extra chemicals, emptying Polaris bag, cleaning the skimmer baskets, backwashing filter or brushing. Time allotted is up to 1 hour per visit as needed. If requested Cozy can provide extra visits or additional time (for storm clean up or parties for example) at a charge of \$65 per half hour.

Day of service cannot be guaranteed and is dependent on jobsite location, weather and may change as the season progresses.
