By signing this document, the Customer understands that:

- Cozy Backyard Pools & Patio's Inc. can NOT guarantee date(s) of service. Services are dependent on jobsite location, weather and may change as the season progresses. The first visit will be performed late fall/early winter, and the second visit will be performed late winter/early spring. Services will only be performed on thawed pools with no solid ice on edges to prevent damage to surfaces.
- The Customer's cartridge filters, DE grid or Polaris will be delivered back to the property at the Customer's spring opening. If the Customer would like the equipment sooner, it can be picked up at our store, located in Mt. Airy, at the Customer's convenience. Notification of pickup is required for removal from storage.
- Between visits it may be necessary for Customer to use a cover pump to remove water from beneath a mesh cover (if water level is on tile line) or to pump water from the top of a solid cover (if cover pump is not automatic).
- Debris removed from cover will be left in appropriate area of yard.
- Materials (such as water tubes or balancing chemicals) and repairs are not included and will be billed separately.
