| | Total | \$ |

Took Chems? Yes No Date: _____

POST-OPENING RECOMMENDATION: It is our recommendation that the pool runs 48 hours prior to performing a computerized water analysis. This will give the water time to fully circulate and give you a more accurate reading of your water chemistry. It may take several days, or up to a week for your pool to clear after opening. Daily attention maybe necessary during this period. Extra backwashing, brushing, filter run times, vacuuming, and chemicals could be required. Before the 48 hour mark, Banish and additional shock doses will be needed to kill algae and clarify cloudiness.

- Cozy Pools Spas and Hearth, LLC is not responsible or liable for present or future conditions of owner's pool and/or equipment. **Initial:** _____
- Opening day not guaranteed until confirmed. **Initial:** _____
- Opening service is between 8am to 6pm, we cannot give specific appointment times. **Initial:** _____
- Vacuuming or Leaf Removal Option will be done on a return visit and be 1 hour at a price of \$230.00 **Initial:** _____
